

# **CONTRACTORS** and **ENGINEERS Magazine**

UNIVERSITY OF NEBR.  
LIBRARY

## **Index To Articles**

January to December, 1965 (Volume 62)

## CLASSIFICATION OF ARTICLES

- Airports and Bases
- Bridges
- Building Construction
- Conventions & Exhibition
- Dams, Powerhouse and Flood Control
  - Dredging
  - Earthmoving
- Engineering and Design
  - General
  - Grading
  - Highway
  - Maintenance
  - Management
- Paving, Concrete
- Pipelines
- Tunnels

#### AIRPORTS AND BASES

Variety of earthmovers works to improve airport--March p 10  
Terminal constructed with unique trusses and pylons--Dec p 52

#### BRIDGES

Concrete retarder makes for economy in deck paving job--Jan p 13  
Rebuilt boring rig places bridge caissons--Jan p 12  
Recipe for a quick bridge-shop finished section--Feb p 102  
Bridge unit has dual purpose at dam site--Feb p 63  
Bridge contract split many ways for economy--April p 111  
Ocean going pile driver works on bridge foundation--June p 30  
Prestressed bridge replaces timber structure--Aug p 48  
Continuous placement of highway bridge saves two weeks--July p 64  
Steel girders are remodeled after earthquake moves pier--July p 50  
Builder bucks racing tides to drive piles for bridge--Oct p 28  
Pile template moves itself 60 ft in 20 min--Dec p 9

#### BUILDING CONSTRUCTION

Atlanta's stadium nears completion under crash program--Feb p 64  
Mechanized welding lets crew work fast on office--Feb p 94  
Pierced shell conservatory roof has unusual forming--Mar p 36  
Skyscraper beam to column connections are welded--Mar p 116  
Alaska rebuilds cities damaged in earthquake--Mar p 20  
Subway construction vs N.Y. traffic April p 18  
Mobile crane converts to tower crane for different jobs--May p 97  
Pumping station built with caisson method--May p 32  
Florida skyscraper built for hurricane winds--June p 46  
Tower cranes speed construction of 3-in-1 hospital--July p 28  
Composite steel and concrete columns frame building-- Aug p 34  
On site plant produces concrete for underground garage--Sept p 26

Conveyor system speeds concrete deck placement--Sept p 12  
Precast floors show advantages on apartment house--Oct p 46  
Steel at street level for N.Y. sports arena--Oct p 34  
Problems met on museum designed as inverted pyramid--Nov p 41  
Navigation lock for space center Nov p 20  
Belt conveyors place 8,000 yards of concrete--Nov p 58  
Tight schedule result - a floor every three days--Dec p 48

#### CONVENTIONS

Construction gains emphasis at HRB meeting--Feb p 24  
Management is stressed at AED Convention Mar p 34  
ARBA urges legislation to aid interstate system--April p 52  
AGC looks at hidden risks that rob contractors--May p 68  
AASHTO's 51st - highway program and problems--Nov p 52

#### DAMS, POWERHOUSES & FLOOD CONTROL

Two rivers harnessed in \$100 million power project--Jan p 16  
Rock bolts and mesh reinforce ceiling Jan p 54  
Prestressed lock slab ties river wall to middle wall--Feb p 30  
Heavy rigs build highest rock fill dam east of Rockies--March p 58  
Diversion pipes, 490 feet long, installed in 7 days--March p 72  
Control gates weigh in at 250 tons--Mar p 38  
Electric wheel scrapers build canal embankment--Mar p 76  
Earthmoving fleet clears way for power-house project--June p 50  
Subgrade drain lowers ground water at San Luis Canal--Aug p 37  
Old paver becomes part of unusual drain filling machine--Aug p 46  
Gigantic machines trim and line canal Aug p 16  
Unusual screens handle sand at Yellow-tail dam--Nov p 36

## DREDGING

Pits dug 30 feet below sea level for borrow--Apr., p 84  
Dredged sand is carried 2 miles to hold beaches--Oct., p 38

## EARTHMOVING

Specially adapted scrapers work hillside sub-division--May p 99  
Increased loading speed overcomes weather delays--May p 100  
Triple scraper is an earth-moving monster--May p 44

## ENGINEERING AND DESIGN

Bonneville salt crust creates design problem on I-80--May p 24  
Test to evaluate design of roads over Mancos shale--June p 12  
Cylinder pile retaining walls prevent slide problem--July p 44  
An 11-story ventilation building is sunk as caisson--Nov p 80

## GENERAL

What's ahead for construction Jan p 66  
Earth augers excavate for water and sewer lines--Jan p 70  
Switch to steel plates speeds sewer jobs--Feb p 26  
Culverts solve drainage problem in shifting soils--Feb p 44  
Washing and repairing monument is a 4½ month job--Feb p 98  
Foundation contractor wins with welded studs--Mar p 16  
Economical underpass matches Spanish design--Mar p 43  
Long pipe piles driven in one set up--Mar p 74  
Long and short hauls split for scraper fleet--Mar p 82  
Army trains operators of heavy equipment--April p 27  
Small crew and spread install steel pipeline--Apr p 141  
Prefabrication speeds missile-base project--Apr p 40  
Ohio's soil-profile tests help build highway--May p 22

Muddy yard complicates production of precast components--May p 47  
Excavator manufacturer hosts overseas licensees--June p 17  
Ultrasonic techniques weld on big truss--June p 38  
River dredging operation is source of aggregate--June p 194  
Products - who makes what for construction--June p 51  
Trade and brand names where to buy what--June p 110  
Manufacturers what they make & where--June p 141  
Grout seals jetty against wave energy--July p 36  
Hammers sink 196-foot piles in 15 minutes--Sept p 70  
Air extrusion method used for stadium remodeling--Sept p 45  
Steel lined sewer driven through unstable clay--Sept p 46  
Trench width is reduced by welding inside pipe--Oct p 57  
Woman contractor wows them in Wisconsin--Oct p 58  
Steel parking deck is purposely warped--Nov p 57  
Standardization pays on Mangla Dam spread--Dec p 40

## GRADING

Mixed spread tackles soil to rock grading--May p 58  
Grading spreads feature fast loading technique--May p 10  
Rehandling of water keeps costs down on desert grading--Sept p 74  
Boulder moving cut to embankment Sept p 48

## HIGHWAYS

Fast assembly of forms and scaffolding helps expressway--Jan p 28  
Elevated structures use steel or concrete--Feb p 104  
Mountain interstate job challenges contractor--Feb p 22  
Mountain road is paved with slip-form machine--Mar p 30  
Road builder beats bad weather and problem fill--Mar p 68  
Ripping saves \$40,000 on parkway project--April p 32  
Rolling scaffolds help place and strip forms--Apr p 62

## HIGHWAYS (cont'd)

Access to site is first problem on Everglades Parkway  
Planer plow cuts stabilization costs for U.S. 287--June p 28  
Blasting job in mountains comes in year ahead of time--Sept p 78  
Rock moving project uses central compressor station--Nov., p 34  
Highway beauty is built into contract for Interstate--Nov p 84

## MAINTENANCE

Davis brothers learned maintenance early--Jan p 79  
Company pride key to successful tire-care program--Feb p 53  
Shop office communications insure successful program-- Mar p 46  
Field service team, mechanic and special truck--Apr p 93  
Record system keeps track of 5,000 tires--Apr p 95  
Contractor farms out tire care April p 102  
Organization keeps rigs running and painted year round--May p 64  
Contractors aided by manufacturers 3-point system--July p 63  
Five man crew handles 40 pieces of equipment--July p 59  
Special rig services earthmovers at dam site--Aug p 59  
Tips to keep vibrating screens young--Aug p 60  
Shop-made inventions keep equipment moving--Aug p 55  
Equipment control and maintenance aid profit margin--Sept p 53  
New maintenance tool liquid looking resins--Sept p 65  
Clean rapid fueling with dry break system--Oct p 86  
Mobile maintenance shops move with grading spread--Nov p 52  
Computer keeps running record of PM program--Dec p 20  
Nylon used as bushings stands up to rough wear--Dec p 27  
Proper vibrating screen selection and operation--Dec p 27  
Pipe & locking device form wire storage rack--Dec p 30  
Sloppy housekeeping in the field can undo PM--Dec p 30  
Tips for warming pneumatic nailers in cold weather--Dec p 31

Care of slewing rings in cranes and shovels--Dec p 31  
Save cash by standardizing on even small items--Dec p 32  
Good operation will cut downtime for crushing plants--Dec p 32  
Check list for crews using loaders & dozers --Dec p 32  
Check fuel, oil, battery in cold weather--Dec p 33  
Isolate hydraulic system faults in front end loaders--Dec p 34  
Climbing crane performance depends on grease power--Dec p 34  
Contractor gives versatile tool maintenance workout--Dec p 36  
How to service truck scales--Dec p 36  
Service truck bodies protect tools and equipment--Dec p 37  
Test reveals internal leaks in hydraulic systems--Dec p 37

## MANAGEMENT

Small staff takes on big highway program--Jan p 34  
State highway department trains, certifies inspectors--Feb., p 100  
RPSM - a way to schedule equipment and manpower--Apr p 104  
Contractor financing high rates and high risks--Aug p 44  
S.J. Groves & Sons Co earthmoving specialists--Sept p 36

## PAVING, CONCRETE

Sharp looking spread operates on Iowa interstate--July p 14  
Automated base machine spreads and trims CTB--Oct p 14  
Automated asphalt plant provides company flexibility--Dec p 55

## PIPELINES

Three backhoes team on crash sewer job--Aug p 28

## TUNNEL

Mole tunnels under Continental divide--Oct p 50
